

## Friends and Family Make Lasting Summer Memories

As we transition to a new season, we reflect on another great summer at Lake Junaluska, which buzzed from sunup to sundown with families, friends and visitors who came to renew soul, mind and body.

For Mike Huber, Lake Junaluska general manager, a highlight of summer 2023 was witnessing families, friends and other groups making lasting memories. Whether it was a walk around the lake, a dip in the pool, a round of golf or a rest in a rocking chair, Lake Junaluska offered something for everyone of all ages.

"Our new and returning groups received excellent Christian hospitality and our Summer Worship Series and Theologian in Residence experience were meaningful," Huber said. "Plans are already underway for summer 2024, with the same endearing traditions as well as some new offerings."

Long-time Lake Junaluska residents Sarah and Hardy Tippet have lived at Lake Junaluska for 20 years and say they love the influx of new people who flood the Lake each summer. They see it as a great example of the Lake's mission statement coming to life.

"The Summer Worship Series, whether in the past, in

Stuart Auditorium, or in the present, in the tent by the lakeshore, is deeply meaningful as we gather not only with those who are residents, but those who are visitors from other places and other denominations," said Sarah Tippet.

The Tippetts said they also appreciated the diversity of speakers who participated in the Summer Worship Series.

"The opportunity to hear different preachers and musicians increases the dimension of our spiritual journey," said Sarah Tippet.

The Independence Day Celebration was special, as always, for families and friends who make it a long-standing tradition for reunions and weekend getaways. With fireworks and multi-day festivities, it's a must-do.

A fitting capstone was the Associates Weekend, according to the Tippetts. "It was a meaningful experience to attend the Junaluska Associates dinner and hear the many stories of those who have contributed to and provided for in the past, present and future of this place so many of us hold dear to our hearts!" the couple said.

# Lake Junaluska
